

## ***Logitech® MX™900 Bluetooth® Optical Mouse***

Bluetooth® cordless • Bluetooth® wireless hub • Cordless • Internet Forward/Back • MX™ Optical Engine • Optical • PC • Quick Switch • Rechargeable mouse • Scroll wheel • USB

A superbly engineered cordless optical mouse that sets the bar for accuracy, control, and comfort and transforms your PC into a Bluetooth control center... all in one.

Today's most advanced wireless technology for personal networks is Bluetooth®, which offers up to 10 meters of range for secure data transmission and works with devices like mobile phones, printers, and PDAs. If you've decided to upgrade to Bluetooth, then you need a Bluetooth hub connected to your home PC. But why add yet another device to your already-crowded desktop? The Logitech® MX™900 Bluetooth® Optical Mouse combines our most advanced mouse ever with a Bluetooth wireless hub in a single package.

With the MX900, you can easily transform your PC into a Bluetooth control center: Communicate instantly using your Bluetooth headset, or easily exchange data between your PC and your Bluetooth PDA, cell phone, and printer. Thanks to the power of Bluetooth, you can do it all with no wires. Learn all about the things you can do with Bluetooth and Logitech.

And with this Bluetooth solution, you also get our most advanced optical mouse. Powered by the Logitech MX™ Optical Engine, the rechargeable MX900 delivers high resolution, high frame rates, and expert-level accuracy you can't find anywhere else. It features eight convenient buttons and a Cruise Control™ scrolling system to make pointing, clicking, and navigating more efficient than ever.

To streamline your desktop, the mouse's power charger also doubles as the Bluetooth wireless hub. You won't have to worry about desktop clutter or battery life. It's just another way Logitech makes it easier for you to work, play, and communicate in comfort and style.

- All you need to put your Bluetooth devices to work for you right now, right at your desktop.
- Logitech's most advanced rechargeable cordless optical mouse
- Bluetooth wireless hub built into the mouse's recharging station
- Works with both Windows® 2000 and XP
- Five-year warranty

## Mouse features

- Tremendous accuracy with the MX™ Optical Engine

New benchmark in optical systems combines high resolution and high frame rate to achieve superior performance.

- Precision scrolling and efficient web navigation

Cruise Control™ system combines two buttons with scroll wheel to ease scrolling through long documents or web sites. And two thumb buttons let you move forward or backward between pages.

- Quick Switch Program Selector

Effortlessly switch back and forth among active programs and documents.

- Comfortable design

Sleek contoured shape fits snugly into your right hand for optimal comfort.

- Rapid charge base station / Bluetooth wireless hub

Bluetooth® wireless hub is also a mouse recharging base to ensure that your mouse is always ready for work (or play).

## Bluetooth wireless hub features

- Communicate freely

Create, send and receive short message with your Bluetooth keyboard and your Bluetooth cellular phone.

- Get organized

Synchronize your Bluetooth PDA or cell phone with your PC.

- Share with ease

Easily transfer pictures and files between your PC and your Bluetooth mobile devices.

- Free yourself from cables and clutter

Print to a Bluetooth printer and accomplish other computing tasks without wires, and use your mouse or keyboard up to 10 meters away from your PC.

## More About Bluetooth

Bluetooth is a standard wireless technology aimed at allowing users to make effortless, fast connections between various devices, such as mobile devices and computers. The sophisticated mode of transmission ensures protection from interference, increased security of data and offers greater wireless range. Your Bluetooth devices by Logitech will work up to 10 meters away from the included Bluetooth wireless hub.
