Leave it to Samsung to redefine sleek with the thin 0.7" bezel on the SyncMaster 191N LCD 19" monitor. But while we went thin on the bezel, we went heavy on the features. Such as a removable base that lets you group multiple monitors together. A pivoting monitor so you don't have to pivot your head. A 170° viewing angle. And a high 500:1 contrast ratio for dynamic images. It's the perfect monitor for those who want more productivity, more flexibility and more style.
